Venue	Multipurpose Hall and College Campus, Jamuhari, Kanke, Ranchi
Participants	Principal, faculty members, non-teaching staff and students

Introduction

N.N. Ghosh Sanatan Teacher Training College, in association with the Internal Quality Assurance Cell (IQAC), is organising a 6-Day Swachhata, Environmental Awareness & Sustainability Programme under Special Campaign 6.0 – 2026. The programme promotes cleanliness, sanitation, environmental responsibility and community participation among students.

As part of this programme, Day 3 was dedicated to the Eco Club, Mission LiFE and the "Ek Ped Maa Ke Naam" plantation drive, held on 05 October 2026.

Proceedings

The activity began in the Multipurpose Hall, where the Principal, Dr. Dhananjay Prasad, briefed the gathering about the event and the purpose of the plantation drive. Faculty members, non-teaching staff and students were present.

After the briefing, all students, faculty members and non-teaching staff moved outside to the college campus, carrying the programme banner. A sapling was planted under the “Ek Ped Maa Ke Naam” initiative, with participants gathering around to take part and watch. Everyone then joined in a group photograph beside the newly planted sapling.

Objectives

- To encourage students and staff to take personal responsibility for the environment.
- To promote the “Ek Ped Maa Ke Naam” initiative, planting a tree as a tribute to one’s mother.
- To support the aim of a clean and green campus under Mission LiFE.
- To build a habit of community participation among future teachers.

Conclusion

The plantation drive was carried out successfully, with enthusiastic participation from students, faculty and staff. The activity added to the greenery of the campus and reinforced the message of caring for nature. The IQAC thanks the Principal, faculty members, non-teaching staff and students for their active involvement.
